Domtar Expands Lynx® Digital Offering

Domtar is pleased to announce that **Lynx® Digital** now includes 100 lb text weight. This addition makes for an even more complete product offering ranging from 45 lb to 100 lb text and 65 lb to 100 lb cover. The sheet sizes include 8 ½ x 11 (for desktop applications) up to 14 x 20 (for production digital devices) and 18” rolls (for digital web presses).

All Lynx Digital papers carry the Domtar Electronic Imaging Guarantee. These papers are guaranteed to work on desktop laser & inkjet printers and color copiers & production digital devices. Lynx Digital is also HP Indigo certified by Rochester Institute of Technology's (RIT) Printing Application Laboratory. The HP Indigo Substrate Certification Program is a series of tests for performance properties including runnability, ink transferability and blanket compatibility.

Additionally, Lynx Digital is FSC-certified, SFI fiber sourcing certified and supported by the Rainforest Alliance. Lynx Digital is also a member of the Domtar EarthChoice® family of environmentally and socially responsible papers. From the forest floor to the customer's door, Lynx Digital is a responsible paper choice for paper buyers and end users.

Reliable, resourceful and cost-efficient, Lynx Digital is a valuable asset to any Print-On-Demand project.
